

Key Benefits

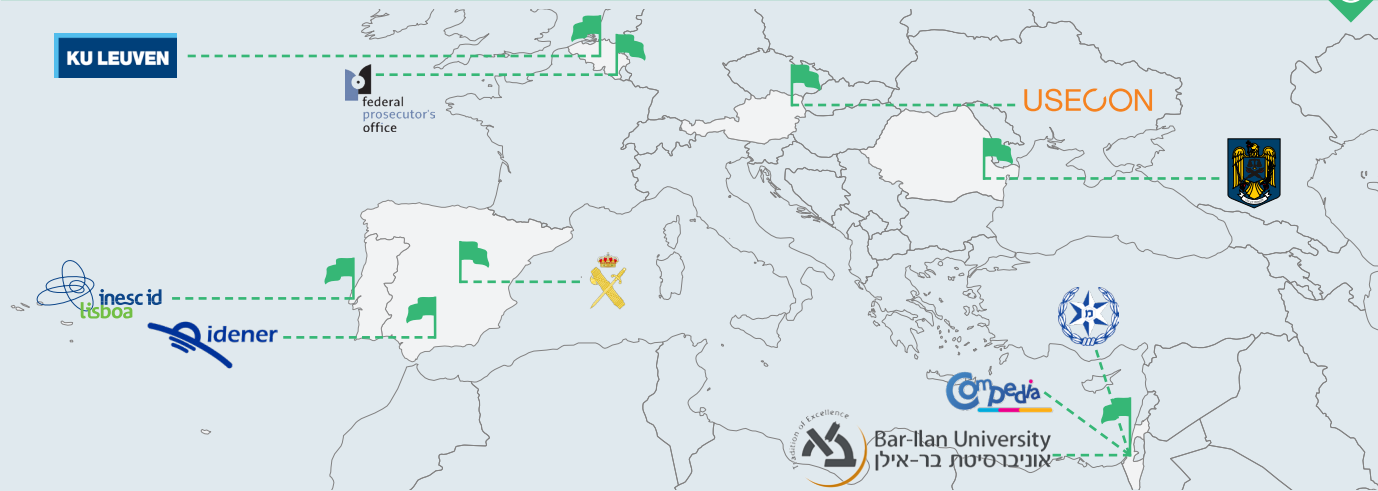

- **Cost effective, multinational** and highly realistic virtual training platform
- **Newest technologies** of virtual and augmented reality
- Competencies in **investigative interviewing** (PEACE methodology)
- Ad hoc virtual **team coordination skills**
- Transnational collaboration and **collaborative decision making skills**
- Parallel training opportunities **anytime** and **anywhere** in multiple locations
- New characters and realistic training scenarios can be created easily, **similar to real life** multinational investigations

Key Innovations

- **Mixed Reality** (VR and AR) and **Artificial Intelligence Simulator** of an investigation environment
- **Virtual Suspect** that can be interviewed by trainees from various countries
- **Virtual Trainer** that can provide automated, standardised feedback to trainees
- **Human Trainer** who observes the training and provides real time feedback to the trainees

Project Details

Project number: 653587
Project Acronym: LAW-TRAIN
Starting Date: 1/5/2015
Duration: 36 Months
Instrument: RIA
Call: H2020-FTC-2014

About LAW-TRAIN

What is LAW-TRAIN?

LAW-TRAIN is a **training platform** for law-enforcement officers that offers the ability to train interviewers and teams in a **virtual** environment. Funded by the **Horizon 2020** programme, LAW-TRAIN is a multinational project, for creating a new and **innovative** way of training of interviewers for **joint-investigations**.

The partners created a framework and hands-on scenarios for preparing investigators to participate in **multinational interviews** concerning international drug trafficking, and to educate law-enforcement personnel in the intricacies of cross-border collaborative investigations. This highly interdisciplinary project intended to create **newest technology** (VR/AR and AI) which answers user needs and requirements in a very **cost effective** and **user friendly** way.

Why?

Crime is a multi-national issue that often necessitates **cross-border investigations**. On one hand, these inquiries are beset by obstacles and miscommunication stemming from **different cultural and legal perspectives**. On the other hand, training officers through role playing is very expensive. With LAW-TRAIN, law-enforcement agencies can cut costs while effectively train their officers in the conduct of joint investigative interviews through the virtual training platform.

“Compliance with Ethical Guidelines approved by EU Commission”

Kick-Off June 2015
